

Fixed-Mobile : Which regulation ?

- I. Fixed - mobile Convergence : a reality
- II. Fixed regulation
- III. Mobile regulation
- IV. Different ways of convergence

1- Fixe –mobile Convergence : a reality

1. Consumer interest

- Lower prices from house
- Same terminal and personal agenda
- Same personal services : voice mail,...portal

2. Different technical ways

- Home gateway with Wi.Fi.
- GSM UMTS domestic connection
- Fixed tariff the mobile is within home cell coverage
- In European Community fixed and mobile regulation are different

II - Fixed regulation

- Results of opening incumbent monopoly
- enforces interconnection
- Technical features and interconnection tariffs decided by regulatory authority
- Tariffs cost oriented

III - Mobile regulation

- Since 2G oligopoly competition with 3 networks operators in France, perhaps 4
- No SMP (Significant Market Power) operator
- Interconnection : commercial negotiation for MVNO, fixed operators

IV- Regulation Different ways of convergence

- *Integration, by merging (United States for instance)*
- *New mobile licences granted by the regulation authority*
- *Pure fixed operators become MVNO*
- *Mobile terminal, cord less fixes terminal thanks to Wi Fi, Bluetooth*
- *Different solutions around the world*
